Foreword

Hope the kids are having wonderful time spending their summer holidays. Thank you for your letters regarding cover page, NRI Page, Kids' pages and Salutation to your solution. Thank you for those who sent pictures for cover page. Some of them we could not consider due to low resolution. Please send us nice pictures and we make them appear as Sanghamitra cover page. We are trying to provide nice cover pages, which when seen by a person should automatically make him say "Wow!". Sanghamitra is looking for committed volunteers in the areas of writing articles related to festivals, about noted personalities, any public events and also proof reading. If you wish to extend your hand, please send mail to .

This year 'Srinivasa Ramanujan Mathematics Club' started successfully and new young energy is curious to know about the tips and tricks. Seniors (4th grade – 10th grade) are thoroughly enjoying the classes. There are more than dozen kids in the senior group attending regularly and 6 kids in Juniors group are interested to participate in Medhavadhanam 2008.

"Learn Telugu in fun way!" program went well. Even though very few kids attended the program, it was amazing. They had fun time while listening to stories and riddles. Surprisingly they came up with some riddles and stories of their own. It was nice to listen rather than to explain. "Story time for everyone" program is scheduled for July 13th evening.

As usual we received lots of suggestions for improving the magazine and we are working on some of them.

Let us meet again in the next issue due in October.

-Sanghamitra Team.

Hindu Temple of St. Louis.

Hindu Temple of St. Louis is located in the heart of city, near by the Manchester Road. It is having Sixteen long years of history. The priests take special interest in explaining the inner meaning of the rituals we do on daily basis as well as on special occasions. Temple honors many guest artists and provides blissful time for the devotees. Picture captured by Smt. M. Lakshmi Ganga Bhavani.

The Hindu temple of St. Louis was formally registered as a not for profit organization in the state of Missouri on March 7th, 1988.

Bhoomi Pooja (ground breaking ceremony) was performed on april 21,1990. The architectural plans were drawn by the famous V GANAPATHI STHAPATI and Associates of CHENNAI, INDIA. After the completion of Phase I, the formal inauguration of the Temple was done on Nov 8,1991. Initially it had only pictures of the deities in the temple. Later SAMPROKSHANA (initiation) of CHARABIMBAS (UTSAVA VIGRAHAS) made of panchaloha (made of five metals) was celebrated on Jan 21, 1995.

The construction of Phase II was started on July 12, 1995. Eleven shilpis (artisans) came from India on Jan 21, 1997 and worked hard to complete the project. The PRANA PRATHISHTAPANA and KUMBHABHISHEKAM celebrations were done on July 6, 1998. The phase III construction including RAJAGOPURAM was immediately started. Finally NAVAGRAHA PRANA PRATHISHTAPANA and RAJAGOPURNA KUMBHABHISHEKAM took place on July 8, 2000.

Spring festival by Indian Association of St. Louis.

Venue : Mahatma Gandhi Center.

Date : May 3rd, 2008

Indian association of St. Louis organized spring festival on May 3rd evening at Mahatma Gandhi Center. Program started with socialization from 4:30 P.M. to 6 P.M. Cultural programs started at 6 P.M. with many classical dances, classical singing. Singing movie songs, dances for movie songs and many more items kept audience in their places till the end of the program.

Message of Mandodari to the mankind by Dr. Goli Anjaneyulu.

Date : May 18th, 2008

Time : 5 P.M. – 7 P.M.

Venue : Vedic Temple of Saint Louis.

Dr. Goli Anjaneyulu, who is visiting St. Louis, allocated few hours of his time to share the knowledge of Ramayana. The topic he selected was “Mandodari’s message to the mankind”. Getting a doubt “What message did Mandodari (wife of Ravana) give to mankind?” is not unusual. Anjaneyulu garu expressed saying - Mandodari, wife of Ravana, taught Ravana what not to do. He never listened to his wife. Our scriptures says about some women, who should be remembered everyday in the morning, Mandodari being one of them. She depicted that Ravana was doing things which were against Dharma. She knew that he was doing those acts out of his ego and lust. She warned him in many situations, but he never cared. Finally he lost his life because of those mistakes he committed. Because of him the City of Lanka was ruined. He explained different situations and quoted those slokas. Vedic Temple of Saint Louis thanked him for his valuable time.

Discourse on Bhagawat Geeta by Dr. Goli Anjaneyulu.

Date : May 26th, 2008

Time : 5 P.M. – 7 P.M.

Venue : Hindu Temple of Saint Louis.

Dr. Goli Anjaneyulu garu blessed St. Louis community by giving discourse on Bhagawat Geeta. Starting May 26th (Monday, being a long weekend), he gave discourses every Sunday covering one chapter at a time. Audience enjoyed listening his unique style of explaining. Listening to Bhagawat Geeta surely improves ones ethics and allows that person to live a quality life. It helps kids in improving their attitude and build strong relation in the society. In reality, Maha Bharat war happens in every ones life. To win the war, Krishna gives variety of techniques in the name of Bhagawat Geeta. He delivered discourse in ATA conference also. He wrote many articles for various magazines and read by many readers.

Walk for Values.

Date : June 20th, 2008

Time : 9:00 A.M. – 2:30 P.M.

Venue : 1455 E. College Ave., St. Louis, MO 63107.

Neighborhood houses, A united church after school program has adopted Sathya Sai Human values program for over 5 years, and have been tremendously successful in making a positive change in the lives of those wonderful young children.

Participation in this program is to raise awareness of the 'Sathya Sai Education in Human Values' (SSEHV) program and importance of practicing these values in our daily life. SSEHV program volunteers built a 'Walking Boat Float' with 'Values Sails', 'Values Banners' for the march. Values games, face painting, dancing at the walk of the parade. The parade started in the morning around 9:15 A.M. from E. College to Fairgrounds park, roughly around 1.3 miles.

International Kuchipudi Dance Convention

Date : June 20th – 22nd, 2008.

Kuchipudi sobha Yatra in Cupertino

The scene in the adjacent photo is not from India. The celebration happened in the streets of Cupertino, California. Silicon Andhra organized Kuchipudi dance convention in association with 'Department of Culture, Government of Andhra Pradesh' and 'Potti SriRamulu Telugu University'. As usual Silicon Andhra attempted a feat by bringing hundreds of Kuchipudi artists from all parts of the world.

Highlights of the convention:

- Generations of dancers at one place.
- Red carpet welcome in traditional way.
- Guru Pujotsavam.
- Kuchipudi sobha Yatra.
- Rathotsavam.
- Scintillating Kuchipudi Ballets.
- Kuchipudi name getting into Guinness World Record.
- Kuchipudi Vyjayanthi ballet with 60 dancers from all over the world.
- First ever Yaksha Ganam in America.
- Thought provoking Lecture Demonstrations.

*

Your Questions – Our Answers

Ramakrishna Vengalasetti, Cupertino, California.

I am reading the magazine pretty regularly. You are doing a very good job. How are you able to manage your time between kids, chores and a magazine? It is a considerable effort.

I tried to solve the cross word puzzle in the april edition and I think I got all of them. Pl. check the attached pdf file. Keep up good work.

- *Thank you for your complements. Elders' blessings and readers' complements are giving us the required strength.*

Krishna M. Gutala, San Jose, CA.

Dear Chi. Srinivas,

Thanks for your mails. I have seen the Ugadi edition of Sanghamitra. Nice articles. Excellent variety of subjects as usual. Thanks. Wishing all the best.

- *Thank you for your wishes.*

Narayana Murty, PA.

Came to know about this site while talking to my friend. He suggested me to see the cover page. It is wonderful piece of artwork. I sincerely appreciate the artist and wish her dream (be) comes true.

- *Thank you on behalf of the Artist (Miss. Aruna garu). I received many mails saying the cover page (Ganesha) is excellent. Sanghamitra team also wish for the best and conveys thanks to Miss. Aruna garu for letting us publish the picture.*

A teacher is explaining about numbers. He said "Six One - Sixty One, Seven One - Seventy One, Eight One - Eighty One, Nine One - Ninety One" and asked a student "What is One One?" The Student happened to come in the middle of the class. He answered "Onety One" without any hesitation. The whole classroom including the teacher burst into laughter.

Smile if you wish

Checkers Game!

Dad : Kevin, why don't you play checkers with Tim?

Kevin : Dad, Will you play with someone who lies & cheats and moves when you are not looking?

Dad : No, certainly not!

Kevin : Well, Neither will he.

Dad : ??? ☹

Building a horse!

A kid played for a while and came home and explaining what she saw.

Kid : Mom! You know what! I saw a man building horse.

Mom : That is nice. Was he building with wood?

Kid : No. It's a live one. It even neighs.

Mom : Are you sure? How can you say he was building?

Kid : I am positive mom! I saw that person nailing to build horse foot.

Mom : ☹

Headache!

Kid : Mom! I've got a stomachache.

Mom : That is because you haven't eaten. Your stomach is empty - that is why it hurts.

Kid : Oh! Is that why you have all those headaches?

Mom : ☹

Banana - Blindness!

Two kids Ravi & Raju are traveling in a train for the first time. They took out bananas to eat, at that moment the train entered into a dark tunnel.

Ravi : Raju! Have you eaten your banana yet?

Raju : No. Why?

Ravi : Well, don't touch it. I took one bite and went blind.

Raju : ☹

Examination

A student is writing an examination, which consists of only true or false questions. So the student took a coin and tossing it up to find either heads or tails. If heads, he is marking as true and false otherwise. He completed answering his question paper and still tossing. When the duration is about to complete, the invigilator watched the student sweating and little tensed.

Invigilator : Are you OK? You already completed answering your questions. Why are you tossing the coin?

Student : I am verifying my answers. None of them tally to the previous answers.

Invigilator : ☹

Let us see some more jokes in next issue. Till then, Good Bye.

Salutation to your solution!

- Sudhakar Attili.

1. There were 100 competitors for a Tennis tournament. The committee decided to select the winner by elimination process. As soon as one of the players loses a match, he is out of the competition. How many matches (minimum) are required to select the winner?
2. A gardener wants to measure 8 ft. He is having 5 ft stick, 7ft stick and a rope. How can he measure 8ft by using the available measuring sticks?
3. Figure out the smallest number, which when divided by 2, 3, 4, 5, 6, 7 respectively gives remainder 1, 2, 3, 4, 5, 0.
4. There were some sweets in a box. Ramesh saw that, took half of the sweets and a half sweet. Then Naresh came, he took half of the remaining sweets and a half sweet. Then Suresh came, he took half of the remaining sweets and a half sweet. Finally when Jagadish came, there were 2 sweets. How many sweets were there in the beginning?
5. There is a three digit number, which is having a perfect square root. When the numbers are reversed [example 234 to 432], then also the number is having a perfect square root. Surprisingly the first number's root is reversed to get the second number's root. What are those numbers?

You can send your answers either by post or by e-mail to the below address on or before September 15th.

e-mail :

Do you know?

The product of two numbers is equal to the product of their LCM and HCF.

Example: Take two numbers 36 and 64.

LCM (Least Common Multiple) is 576.

HCF (Highest Common Factor) is 4.

Product of the numbers = $36 \times 64 = 2304$.

Product of LCM & HCF = $576 \times 4 = 2304$.

Kids' Corner

- Sudhakar Attili.

Ego!

Once upon a time, there was a sculptor. He was a very skilled person and known for the lively statue sculptor. People could not differentiate the statue with an actual person. He himself proud of his ability.

He came to know his life span from an astrologer. So he worried about his death. He wanted to live many more years and earn name and fame.

He learnt from a scholar that the lord of death (Yama) throws a string (Pasam) to the person when death time approaches and pulls out the life. So he came up with a plan to survive. He carved multiple statues of his own. They were to the utmost perfection that they all look alike. He checked himself with the statues to make sure there were no differences. When the time came, he kept all the statues side by side and he himself slept in the middle.

When Yama arrived to get the life of the sculptor, he puzzled seeing so many persons lying in a row. He should identify the sculptor before using his tool. He used so many tricks to identify the sculptor. But the sculptor didn't move a bit. So Yama didn't know what to do. He can not leave without finishing his job. So he thought for a while to come out of this problem. Finally he figured out a way.

He went to each statue and said this is a great artwork. He stopped at one of the statues and said "Everything looks fine in this statue, but ...", immediately the sculptor got up asking "What is wrong with the statue?" and made the work of Yama easy. It was too late for the sculptor to realize the mistake he made. So his ego made him speak-out and lost his life.

Moral : One should get rid of ego to achieve higher state of consciousness and to be in a blissful state.

Can you find the word?

1. This word a 6 character word which means "Arise or move rapidly".
2. This is one of the seasons.
3. The combination of first, fourth, fifth and sixth characters means 'making musical sounds with the voice'.
4. Last four character forms a word which means 'outline of a circle'; This word goes with circus, boxing, marriage to make a meaningful combination.
5. The combination of Sixth, Third, Fourth and Fifth characters means 'broad smile showing the teeth'.
6. First, Second, Fourth and Fifth characters in sequence forms a word, which means "turn rapidly on its axis; draw out and twist into threads".

Tricky question – Smart Answer

Can you name a bus that crossed atlantic ocean?

(Did you give up? Answer in next page.)

You are smarter than you think 'you are'. You know your ability only if someone identifies it.

Cross Word for kids

Across : 1. The only 3 character month name in English Calendar. (3)
 4. Old. (4)
 7. A slant surface used alternative to stairs. (4)
 8. Mineral from which metal is obtained. (3)
 9. Nation is gone in 'Intonation'. (4)
 10. Bright red color ending in LION. One 'I' is missing and jumbled. (3)
 12. A south Indian snack, jumbled. (4)
 13. Tie is lost in 'light sensitive eye part'. (4)
 14. Trickle or flow out slowly. (4)
 16. Strong thread or string. (5)
 17. An important city in California. Abbreviation. (2)

19. Symbol for Titanium. (2)
 21. A person who secretly watches or gathers information. (3)
 22. A word, which means turn rapidly on its axis. Filled in cyclic order, where last character comes first. (4)

Down :

1. Cinema film. (5)
 2. Organized force for fighting on land. (4)
 3. A color starting with a word means shout. (6)
 4. Mixture of Oxygen, Nitrogen, etc. Prefixing this word with bed, port, craft gives a meaningful word. (3)
 5. A committee, which decides or directs operations. Upside down. (8)
 6. Brief record written down to aid memory; short or informal letter; Musical tone of definite pitch. Upside down. (4)
 7. Give as a gift to a fund or institution. (6)
 11. Thermionic valve with two electrodes. Bottom to top. (5)
 15. Symbol of Zinc. (2)
 16. Tabular plug with a device for allowing liquid to flow through. A variety of dance. (3)
 17. Vowel free 'LOOSE'. (2)
 20. An abbreviation of 'Internet Protocol'. (2)

Money matters!

➔ *Recently in Srinivasa Ramanujan Mathematics Club, we asked “what is the product of 37 and 25?”*

➔ *None answered.*

➔ *The next question we asked was “How much is it - when you add 37 quarters?”*

➔ *Quickly answer came out saying “9 dollars 25cents.” “Amazing!” we said. “So $37 \times 25 = 925$.”*

➤ *4 Quarters make 1 dollar. So 36 quarters make $(36/4=)$ 9 dollars. So 37 quarters make 9 dollars and 25 cents.*

Solutions & Winners

Kids Challenge!

Did you find the word?
It is "SPHERE".

Smart kids :

1. Sruthi Ainapurapu, St. Louis.
2. Sravya Ainapurapu, St. Louis.
3. D. Aditya, Lucknow.

Kids' 'X'word Winners:

1. Sravya Ainapurapu, St. Louis.
2. A. Lakshmi Puja, Visakhapatnam.
3. A. Swathi Keertana, Visakhapatnam.

Salutation to your solution! - Answers

1. According to the problem, first person saw 1 and 2 even numbers. So he saw 1, 2, 2. Second person saw only 2 even numbers. So he could see only two faces and they are 2, 2. Third person and Fourth person saw all the three numbers 1, 2, 3. So If you analyze, the dice is having 1, 2, 3, 1 on sides and 2 on the top. Which shows that the number facing down (hiding) is 3.
2. According to the problem, the average of two numbers is 44. So the sum of the numbers is 88. If we assume one of the numbers is X, then the second number is $(88 - X)$. The product of numbers is given as 1887. So $X(88 - X) = 1887$.
Let us solve for X.

$$88X - X^2 = 1887$$

$$X^2 - 88X + 1887 = 0$$

$$X = [88 \pm \sqrt{(88^2 - 4 \times 1 \times 1887)}] / (2 \times 1)$$

$$X = [88 \pm \sqrt{(7744 - 7548)}] / 2$$

$$X = [88 \pm \sqrt{196}] / 2$$

$$X = [88 \pm 14] / 2$$

$$X = 51 \text{ or } 37.$$
 So the numbers are 51 and 37.
3. There are 6 chairs and 5 people. So they can change their positions in 6C_5 ways, which is equal to $6 \times 5 \times 4 \times 3 \times 2 = 720$ ways. Every week they are changing into different positions. So they require 720 weeks to try different possibilities. It comes to approximately 13.846 years.

4. To find the value of $1 + 3 + 5 + \dots + 999$, let us start with 2 numbers in the series, then 3 numbers and so on.

$$\begin{aligned} 1 + 3 &= 4 = 2^2 \\ 1 + 3 + 5 &= 9 = 3^2 \\ 1 + 3 + 5 + 7 &= 16 = 4^2 \\ 1 + 3 + 5 + 7 + \dots + 999 &= 500^2 = 250000. \end{aligned}$$

So the sum of odd numbers from 1 to 999 is 250000.

5. The possible even numbered cards are either 2s, 4s, 6s, 8s and 10s. Each one of them have Hearts, Diamonds, Clubs and Spades. So all together 20 even numbered cards. Total possible cards 52. So the probability of getting an even numbered card is $20/52 = 5/13$.

Salutation to your solution! - Winners:

1. T. Anoop, East Godavari.
2. Ravi Bhagavatula, Chicago.
3. Vaasanti Maghapu, California.

Question Gallery! - We ourselves disclosing answers!!

1. Bala Gangadhar Tilak is known by the name Lok Manya.
2. I.K.Gujral wrote "A foreign policy for India".
3. **Konark Sun Temple** is a 13th-century Sun Temple (also known as the Black Pagoda), at Konark, in Orissa.
4. World Health Organization is located in Geneva.
5. The capital of Philippines is Manila.
6. Pyrometer is an instrument used to measure high temperatures.
7. One Tula is equal to 11.664 grams.
8. Symbol of Magnesium is Mg.
9. Edison Arantes do Nascimento, nickname Pelé is a well known football player from Brazil.
10. A **knockout** (also referred to as a **K.O.**) is a winning criterion in several full-contact combat sports, such as boxing, kickboxing, Muay Thai, mixed martial arts and others sports involving striking. A knockout is usually awarded when one participant is unable to rise from the canvas within a specified period of time, typically because of fatigue, injury (serious or temporarily incapacitating, e.g. a bleeding cut above the eye can blind a fighter), loss of balance, or unconsciousness.

Question Gallery! – Winners :

1. Vaasanti Maghapu, California.
2. Ravi Bhagavatula, Chicago.
3. T. Anoop, East Godavari Dt.

Concluding word

Dear readers,

Thank you for your continued support and feedback. Sanghamitra English version completed 1 year with this issue. Without your support it might not have happened. We are once again requesting articles for publishing in this magazine. There are no bounds to knowledge. I may not know - what you know and you may not know - what I know. To share information Sanghamitra is the platform available. You can write about all time great scientists, freedom fighters, musicians, artists, singers etc. You are always welcome to send articles for the sake of our friends in variety of areas namely science, sports, dances, music, universe, spirituality, geography or anything of your interest. Sharing knowledge, Joy and wealth gives immense joy. Send any articles or your feedback to

You can send your answers to 'Question Gallery', 'Salutation to your Solution', 'Kids Xword', 'Can you find the word' before September 15th either by E-mail or Postal mail. Encourage your kids to do Kids' Xword and other challenges. They learn while enjoying.

Note : Answers should be sent on or before **September 15th**.
